SUMMARY

I am a detail-oriented B.Tech student in Computer Science and Engineering with a strong foundation in full-stack development and a passion for coding. I have proven experience in implementing web applications using the MERN stack, coupled with solid skills in data structures and algorithms. I actively participate in coding competitions and hackathons, showcasing my commitment to continuous learning and innovation.

EXPERIENCE

Coding Competition and Hackathon Participant

Various Coding Competitions

📅 01/2022 - 01/1970

Participated in competitions and hackathons, demonstrating problem-solving skills and teamwork.

- Engaged in various college-level coding competitions, developing critical thinking and analytical skills.
- Collaborated with peers in hackathons, successfully delivering innovative solutions to complex problems under tight deadlines.

EDUCATION

Bachelor of Technology (B.Tech)

AKTU University

📅 09/2023 - 06/2027

High School Diploma

Bishop George School and College

📅 01/2022 - 12/2022

LANGUAGES

Java Advanced	●●●●●	JavaScript Advanced	●●●●●
C Programming Intermediate	●●●●●	Python Advanced	●●●●●

KEY ACHIEVEMENTS

💎 **Hackathon Achiever**
Ranked in top 5% among 500 peers in hackathons.

💎 **MERN Stack Projects**
Completed 10+ projects using MERN stack technology.

💎 **Algorithm Proficiency**
Solved over 150 algorithmic problems on top platforms.

💎 **Website Optimization**
Improved website performance by 30% through optimization techniques.

STRENGTHS

🧠 **Technical Skills**
Strong foundation in full-stack development and a passion for coding.

★ **MERN Stack Developer**
Proven experience in implementing web applications through MERN stack proficiency.

🔗 **Soft Skills**
Effective communication, critical thinking, and problem-solving abilities.

SKILLS

Algorithms apis c programming

Data Structures

data structures and algorithms Java

Javascript Python

PROJECTS

MERN Full-Stack Application

📅 01/2025 - 12/2029

MERN Full-Stack Application

- Developed a comprehensive web application utilizing the MERN stack, focusing on user authentication, data management, and interactive UI design.
- Role: Full-stack developer; implemented CRUD operations and integrated third-party APIs.

PASSIONS

⚡ **Well - Participated**
Enthusiastically attends seminars by renowned personalities, fostering a spirit of learning and personal growth in technology and innovation.
